

WEISS UNI-PRINTER

UP-EO-S

UNI-Printer

The UNI-Printer is a unique 1-colour printer.

It is made in two versions, either with our very flexible and universal Top-screen holding clamp, type UP-EO-T or with our strong Side-clamp holders and Micro adjustment, type UP-Sc-Ma-T.

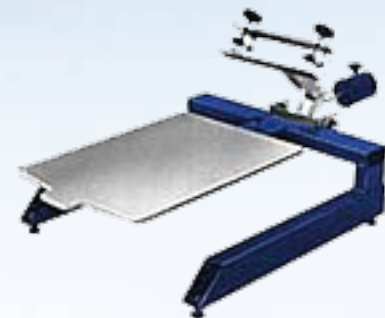

Both types have the "Screen swing away" function, it gives the full overview when loading and unloading.

All our options fits onto the machine witch makes it possible to T-shirts, jackets, caps and umbrellas and also with vacuumtable it is ideal for transfers.

The palletarm can be moved downwards witch gives the possibility to print on up to 65 cm high items too.

UP-SC-MA-S

LOW

The LOW is for 1-colour prints primarily for T-shirts and similar and is ideal for placing on a table.
